

Prayer

Father we give thanks for your mighty power and because you have smiled upon my family and me, the ten benefits of favor according to the scripture belongs to us all.

We have supernatural increase and promotion- Genesis. 29: 21

We have honor in the midst of our enemies- Exodus 3:21

We have increase of assets and real estate- Deut. 33: 23

We have great victories in the midst of odds stacked against us- Joshua 11:20

We have recognition even when it seems least likely- 1st Samuel 16:22

We have prominence and preferential treatment- Esther 8:17

We have petitions granted even by ungodly people- Esther 5:8

We have policies rules regulations and laws changed in our favor- Esther 8:5

And we have battles won that we do not have to fight- Psalms 44:3

Father we have the mind of Christ and possess great skills, integrity, and peace, which cause us to triumph and not quit or fail. Whatever we lay our hands to will prosper and we prosper in all things even as our soul prospers.

The strong spirit of our God sustains us in bodily pain or trouble and we shall not be afraid of bad news because our hearts are firmly fixed, trusting, leaning on and is confident in the Lord. We shall always choose to believe the report of the Lord. We have supernatural favor, supernatural strength of mind and body and a manifestation of your spirit in every area of our lives.

Father you strengthen us and harden us in difficult times. Father you are our helper and you retain us with your victorious right hand of righteousness and justice. We are the healed of God in every area of our life and we walk in divine health and prosperity.

As a family we are satisfied with all good things and God the father is blessing us beyond our mental capacity. Amen

Note: g bites friends please read this confession at least once a day as an added devotional tool during this time of fasting. Naturally you will add to this confession as the spirit directs. We feel that this is a jump starter to the New Year and an added benefit to your daily prayer.
